

COMPANY INTRODUCTION

COMPANY PROFILE

- 2011 Flour Valve S.P.A is based in the northern city of Milan, Italy. Flour Valve S.P.A is formed to fill a void in the market for quality, custom-engineered ball valves conforming to API 6D.
- Building on the success of the ball valve model for short lead times with high quality, we are now offering a full range of the valves including ball, gate, globe, plug, check, and butterfly valves, with a continually evolving range following the same philosophy.
- Our valves are designed for severe service to a high standard for applications such as corrosive and erosive (slurry) fluids, high temperature, underground, cryogenic, and any other specific requirements from our customers.
- Valves meet a full range of industry standards and testing requirements as per the customer's specification to include: fugitive emissions, performance, and functionality, high-pressure gas, high temperature, low temperature, fire safe. NDE inspections can be conducted as required.

PRODUCT RANGE

- Gate Valves
- Ball Valves
- Globe Valves
- Check Valves
- Butterfly Valves
- Plug Valves
- Control Valves

Size Ranges from ¼" to 100"

Pressure Classes from #150 to #2500

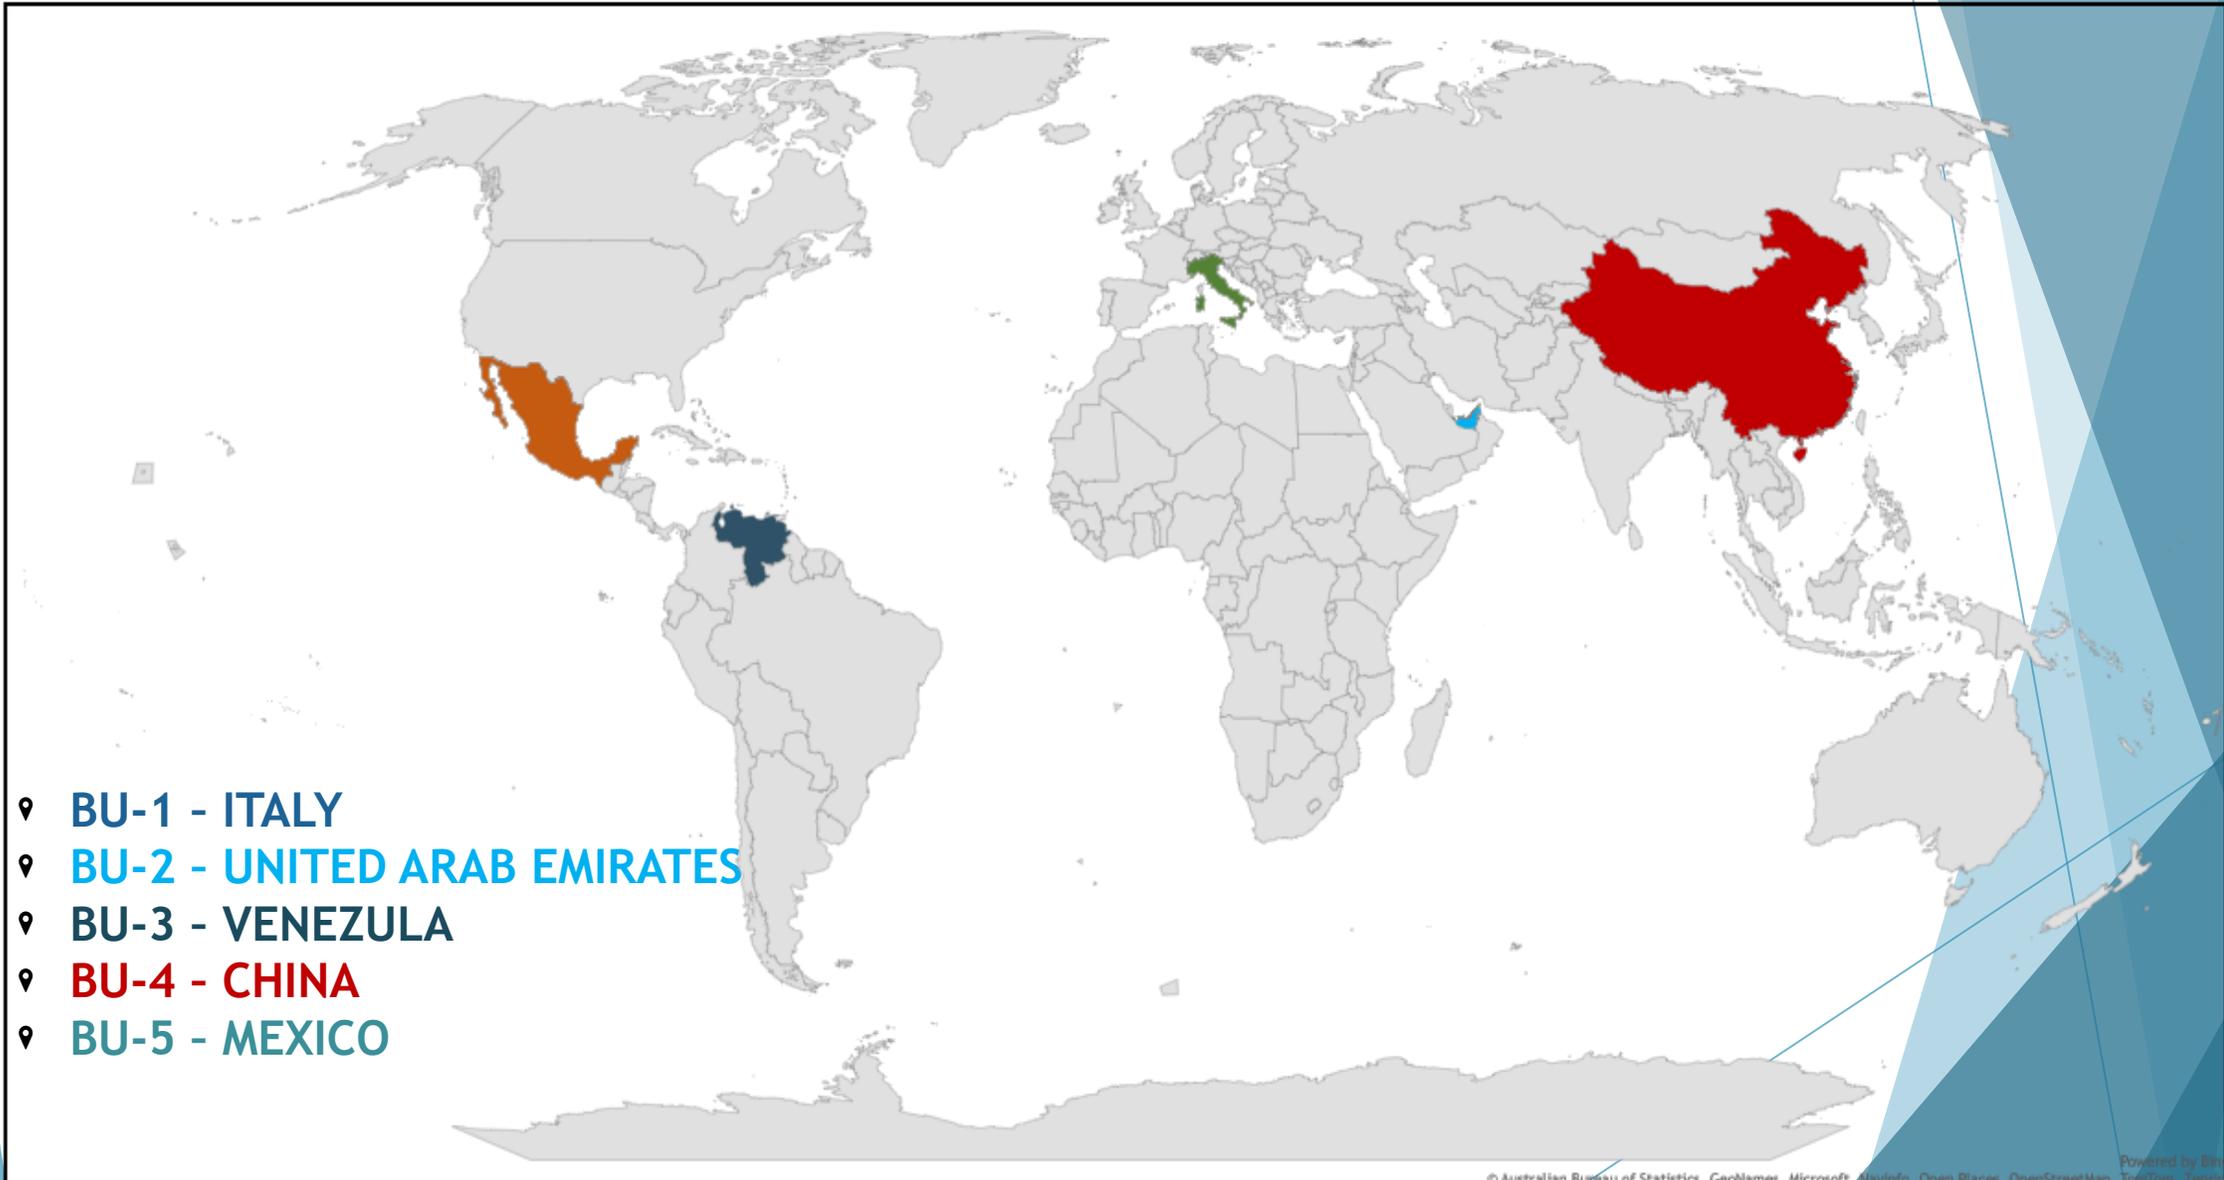

MISSION

- Our team offers the most up-to-date, sustainable manufacturing as well as engineering solutions. We source our raw materials from tried and trusted suppliers so that our final product meets the desired result.
- We are inspired by good valve manufacturing companies to improve ourselves and achieve respect for our brand and people.
- Our vision is to continue as the market leader in terms of quality, service, value, and innovative product development across all our business
- We look forward to receiving your valuable inquiries for all your industrial valves requirements.

SCOPE

- Design, manufacture, modification, engineering, and sales of industrial process control valves, choke valves, actuators and valve mounted instrumentation.
- Non-Standard designs and configurations are also possible with us.
- Refurbishment of control valves and supply of after-sales service, engineering, and consultancy.
- Quality systems in accordance with ISO9001:2015, API 6D/API 600 .
- Environmental accreditation with ISO14001:2015
- OH&S accreditation with ISO18001:2018
- Control valves and actuators manufactured to the requirements of European Directives 97/23/EC (PED) and 94/9/EC (ATEX).
